**To: All Branches**

Dear Colleagues,

## **TUC Survey Of Union Reps & TU Safety Reps:**

The TUC National Health and Safety Policy Officer has requested that all Unions request the support and participation of all Union Reps, including Health and Safety Reps. This is an additional survey to the TUC Biennial Safety Reps Survey due next year.

This is a special time in the TUC calendar when they survey TU Reps from all Unions. This is not just a taking of the temperature, or a chance to reflect on 'tough times'. It is a very real chance to influence what support the TUC offers to Reps through training courses, guidance documents etc.

This survey is part of a major piece of research by the TUC into the role of Union Reps in the modern workplace. Your response will help to shape the future of the TUC and help them to decide how the TUC and affiliated Unions support Reps in future. This is a major survey and will take in the region of 20 minutes to complete depending on your answers. You can save and print your answers before you submit them at the end.

The TUC believes in a movement with Reps at the forefront of what they do. That means supporting Reps to win in the workplace – from resources and learning, to events and guidance.

If we want to change things, it needs all of us involved. Union Reps/Safety Reps can take this survey to contribute to the TUC strategy and help shape the future of the TU movement. The TUC is undertaking a major piece of research into the role of Union Reps in the modern workforce and they've been travelling round the country speaking to Reps and are now launching this UK-wide Trade Union Reps survey. Responses will help shape the future of the TUC and refine how they and our affiliated unions support Reps in future.
