

# WHY?

There are 3 reasons why we are updating our driving styles on Isotrak....

## Safety

The health and safety of all employees is our first priority, always. Focusing on improving our driving styles will help everyone stay safe on the road.

In 2019-20 National Distribution had:

**572 RTCs**

In 2019-20 at XXXX we had:

**43 RTCs**

## You said, We did

Each year we ask for you to give us feedback through engagement surveys and we hear our Isotrak system needs improvement. We have:

- Worked with the CWU and Isotrak to identify more up to date driving styles.
- Updated the system, to reflect new and more accurate driving styles.
- Upskilled managers and ADCs to inform you of the changes.

## Fuel savings

As a function, driving and connecting our business is what we do. As a result, we spend a huge amount on fuel each year. In 2019-20, National Distribution spent:

**£69.3 million**

In 2019-20 at XXX we spent:

**£3.2 million**
