SAVE OUR POST OFFICE

POST OFFICE MANAGEMENT ARE DRIVING THIS GREAT BRITISH INSTITUTION INTO OBLIVION BY THEIR COST CUTTING STRATEGY. THEY HAVE NO VISION FOR THE FUTURE AND THEIR POLICY IS ONE OF “MANAGED DECLINE”.

Management are attacking Post Office workers including Post Masters on all fronts by:

✘ Slashing jobs
✘ Attacking terms and conditions (including pensions)
✘ Privatising Crown Post Offices to retailers such as WHSmith.

We need to keep our Crown Offices open. Privatising leads to:

✘ Loss of service to the community – there is no guarantee that a privately run Post Office won’t close in the future
✘ Loss of local knowledge and trained, dedicated staff
✘ Poorer accessibility for the elderly, disabled and parents with young children
✘ Death of the high street due to loss of footfall.

The Post Office is a public company, owned by the government. We are calling for the government and the Post Office to halt the programme of franchising and cuts and to sit down with unions, customers, small businesses and communities who rely on it, to put together a fresh strategy that can develop new services and safeguard it for the future.
